- Create a ground transportation booking
- Modify a ground transportation booking
- View all ground bookings
- Enter profile information

Overview

Reserving ground transportation has been made simpler through GetThere's Ground Network. From your company's travel booking tool you can now reserve an Executive sedan, Limo, or Shuttle easily and quickly.

This guide takes you through the process of making a ground transportation booking, and also how to view all of your ground reservations and modify a reservation when needed.

From the Home Page

To book ground transportation from the GetThere Home Page, click the **Taxis, Limos & Executive Sedans** link in the **Other Booking Options** section.

If you access ground transportation from the GetThere Home Page, a new window displays with a message. The message advises that you have accessed the GetThere ground transportation booking page without an associated travel itinerary. If you would like to associate your ground transportation booking with an existing GetThere trip, it is best to make a booking from the Reservation Complete page or Trip Details page. If you click the **Continue with Booking** button, a ground transportation only itinerary is created.
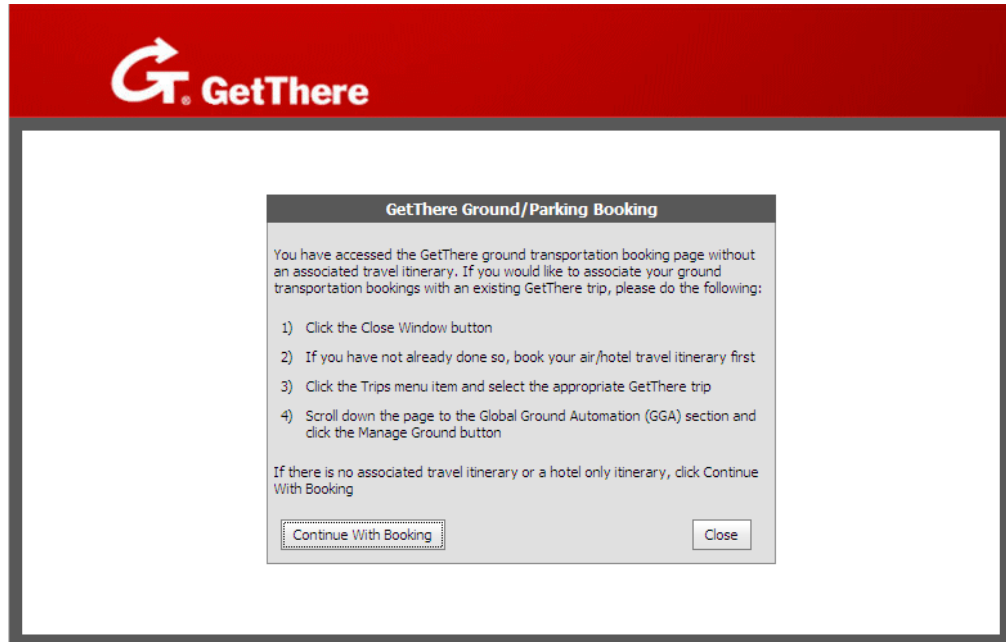

From the Reservation Complete Page

After you complete a booking, click the **Manage Ground** button in the **Ground Transportation Service** section.

Reservation Complete

Please Note:NONREF/0VALUAFTDPT/CHANGEFEE. Fares not guaranteed until ticketed.

Click on the Fare Rules link for itinerary rules and restrictions prior to purchase.

Your travel selections include non-refundable fares. If your ticket is not used on or by the travel date(s) specified on your tickets, the unused portion may have no value after that date and/or after the flight has departed.
